*Learning Objective: 02-03 Develop a personal balance sheet and cash flow statement.*

*Topic: 02-05 Personal Financial Statements for Measuring Financial Sustainability*

## **Multiple Choice Questions**

27. Saving and investing for the future reduces the amount you can spend now is an example of a(n):

- A.** Opportunity cost
- B. Cash flow management
- C. Spending habits
- D. Savings plan

*Accessibility: Keyboard Navigation*

*Difficulty: Medium*

*Learning Objective: 02-01 Recognize relationships among financial documents and money management activities.*

*Topic: 02-01 Planning for Successful Money Management*

28. Comparison shopping can save you money and improve the quality of your purchases but uses up something of value you cannot replace: your time is an example of a(n):

- A.** Opportunity cost
- B. Cash flow management
- C. Spending habits
- D. Savings plan

*Accessibility: Keyboard Navigation*

*Difficulty: Medium*

*Learning Objective: 02-01 Recognize relationships among financial documents and money management activities.*

*Topic: 02-01 Planning for Successful Money Management*

29. Buying on credit results in payments later and a reduction in the amount of future income available for spending is an example of a(n):

- A.** Opportunity cost
- B. Cash flow management
- C. Spending habits
- D. Savings plan

*Accessibility: Keyboard Navigation*

*Difficulty: Medium*

*Learning Objective: 02-01 Recognize relationships among financial documents and money management activities.*

*Topic: 02-01 Planning for Successful Money Management*

30. Spending money on current living expenses reduces the amount you can use for saving and investing for long-term financial security is an example of a(n):

- A. Opportunity cost
- B. Cash flow management
- C. Spending habits
- D. Savings plan

*Accessibility: Keyboard Navigation*

*Difficulty: Medium*

*Learning Objective: 02-01 Recognize relationships among financial documents and money management activities.*

*Topic: 02-01 Planning for Successful Money Management*

31. The components of money management activities are:

- A. Sorting, Creating personal financial statements and implementing a budget
- B. Balancing incomes with expenses
- C. Saving for retirement
- D. Balancing current spending with the opportunity cost

*Accessibility: Keyboard Navigation*

*Difficulty: Medium*

*Learning Objective: 02-01 Recognize relationships among financial documents and money management activities.*

*Topic: 02-01 Planning for Successful Money Management*

32. Money management refers to

- A. Day-to-day financial activities
- B. Long term financial activities
- C. Asset management
- D. Investment management

Money management is more related to short term cash flows, not just.

*Accessibility: Keyboard Navigation*

*Difficulty: Medium*

*Learning Objective: 02-01 Recognize relationships among financial documents and money management activities.*

*Topic: 02-01 Planning for Successful Money Management*

33. Opportunity cost refers to:

- A. current spending habits.
- B. changing economic conditions that affect a person's cost of living.
- C. storage facilities to make financial documents easily available.
